LGBT People's Experiences of Workplace Discrimination and Harrassment

“

“Once I asked to change my name tag at [a regional grocery store chain] as I finally came out as transgender. . . [T]hey refused to call me by my chosen name and continued to misgender me constantly.”

**-Transgender sexual minority person from Ohio**

“

"Because I'm gay and trans  
I got fired and blackmailed to leave"

**-Transgender gay man from New Jersey**

“

"I'm gay and trans I worked at [a national hardware chain] I had a large majority of my co-workers refuse to acknowledge my identity and I would fight with them every single day that I would work and get into arguments."

**- Transgender bisexual person from Virginia**

# What is "gender" anyway?

This social construct defines societal norms, and behaviors, around what is male, female, or a gender that is nonbinary

# Gender identity

A person's internal, personal sense of being a man or a woman, neither or both.

# Gender identity ≠ sexual orientation

# Gender expression

Is expressed through a person's name, pronouns, clothing, haircut, behavior, voice, behaviors, and/or body characteristics. Society identifies these cues as the gender a person identifies as.

## **Cisgender**

Used to describe people whose biological sex assigned at birth matches their gender identity

## **Transgender**

Used to describe people whose gender identity differs from the sex they were assigned at birth

## **Agender**

Used to describe people who do not identify as any gender

## **Sex**

Refers to a person's biological status and is typically assigned at birth, usually on the basis of external anatomy. Sex has historically been defined as male, female and intersex.

## **Nonbinary**

Used to describe people who describe themselves or their genders as not fitting into categories of man or woman.

## **Gender fluid**

Used to describe people who do not identify themselves as having a fixed gender or people who have a gender or genders that change. Genderfluid people move between genders, experiencing their gender as something dynamic and changing, rather than static.

## **Gender transition**

The processes a person may take to bring themselves and/or their bodies into alignment with their gender identity.

## **Gender dysphoria**

The psychological distress that results from an incongruence between one's sex assigned at birth and one's gender identity.

# Know your systems and have a plan

# Some more person-to-person tips

- Use the name and pronouns the person prefers.
- Unsure of the person's name or pronouns? Listen or ask.
- Dead naming... don't do it.
- Support people using the restroom that matches the gender they identify with.
- Normalize using pronoun introductions
- When you mess up, apologize, move on, and genuinely try not to make the same mistake.

**Be cautious not to  
"out" people**

## **A note about discrimination in the workplace**

In 2020 *Bostock v. Clayton County* added protection for gender identity when the court held that workplace discrimination based on sexual orientation and gender identity is unlawful “sex” discrimination under Title VII.

# **Predictable barriers to support in the workplace**

- Lack of gender-identity-specific nondiscrimination policies and practices
- Lack of targeted education in the workplace
- Undeveloped process for support
- Lack of understanding and education among employees
- Stigmatization of transgender and gender-nonconforming people
- Bias against transgender or gender-nonconforming people

# Things to think about in your workplace

- Gender and pronoun options on applications
- Health insurance coverage and information
- Gender and trans inclusion policies
  - bathroom use
  - pronoun and name usage
  - pronoun intro in signature blocks
- A flexible transition plan
  - how to change a person's name
  - how to change email
  - communication
- Training to educate co-workers and managers
